Objective

As a dedicated Mobile Developer with over 6+ years of experience specializing in React Native, I seek to leverage my technical skills in a dynamic and innovative environment. My goal is to contribute to developing top-of-the-line solutions, while continuously learning and growing professionally.

Educational Qualifications:

- Bachelor of Engineering from Chameli Devi Group of Institutions, Indore Affiliated from RGPV Bhopal with specification in Computer Science with 80% in (2017-2018).
- Senior Secondary School Certificate from M.P. Board of Secondary Education with 82% in (2013-14).
- High School Certificate (10th) M.P. Board of Secondary Education with 85% in (2011-12)

Skills:

- Tech Stack: Proficient in cross-platform development using React Native, React JS, TypeScript, JavaScript, HTML, and CSS.
- Redux: Experienced in managing application state using Redux.
- Version Control with Git: Proficient in using Git for version control.
- Operating Systems: Comfortable working with both MAC OS and Windows.
- Unit Testing: Experience in writing unit tests to ensure code quality.
- External Libraries: Global Design System.
- Tools: Proficient in using VS Code, Xcode, Android Studio, Figma, and Sketch for development.
- Testing Tools: Experitest tool for testing UI and Accessibility ID.

Roles and Responsibilities:

- **Cross-Platform Mobile Application Development:** Developed and maintained high-quality mobile applications for both iOS and Android platforms using React Native, ensuring seamless performance and user experience.
- **UI/UX Design Collaboration:** Collaborated with UI/UX designers to translate wireframes and prototypes into responsive, user-friendly interfaces, enhancing overall user engagement.
- **State Management Implementation:** Utilized Redux for efficient state management, ensuring consistent and predictable application behavior across various components.
- **Performance Optimization:** Diagnosed and resolved performance bottlenecks, optimized application speed, and ensured smooth animations to provide a native-like experience.
- **Code Quality and Maintenance:** Wrote clean, reusable, and well-documented code; implemented unit tests to maintain code quality and facilitate efficient debugging.

Work Experience:

Virtusa Consulting Services Pvt. Ltd., Hyderabad.

React Native Developer - June 2024 - Present

Project 1: Computershare – HK

- **Cross-Platform Development:** Developed a stock market mobile application using React Native, ensuring compatibility and optimal performance on both iOS and Android platforms.
- **Component Library Integration:** Integrated and customized the GDS component library and Context API to enhance the application's user interface and state management, aligning with client specifications.
- **Accessibility Features:** Implemented accessibility identifiers (accessibility IDs) throughout the application to comply with accessibility standards, improving usability for all users.
- **Internationalization (i18n):** Incorporated internationalization support to prepare the application for future localization, facilitating expansion into non-English speaking markets.

Project 2: Computershare – US

- **Regional Application Development:** Developed a stock market mobile application tailored specifically for the Hong Kong market using React Native, ensuring compliance with regional regulations and user preferences.
- **HK Language Localization:** Led the translation and localization efforts, adapting the user interface and content to support Traditional Chinese, enhancing accessibility and user experience for HK users.
- **Component Library Integration:** Utilized the GDS component library and Context API to maintain consistency in design and functionality, adhering to client guidelines specific to the HK application.
- **Accessibility Enhancements:** Ensured the application met accessibility standards by implementing features identified by accessibility IDs, enhancing usability for all users.

Infobeans Technology, Indore- React Native Developer June 2022-May 2024

Project 1: Gurukula

- **Brief Description:** A unique method to learn Indian Culture for people in the 21st century. The app connects users to like-minded characters and helps them develop a deep righteous attitude for life.
